## Q3無

## Quartorly Bulletin of Statistios

## Q3 2012 Highlights

## Air Arrivals:

Bermuda hosted 80,852
tourists.

## Tourist Accommodations:

Gross Hotel Receipts amounted to $\$ 78.4$ million.

## Hotel Employment:

The Hotel Industry employed 2,579 workers.

## Overseas Spending:

Residents declared overseas purchases totalling $\$ 17.7$ million.

## Retail:

Retail sales reached
$\$ 262.2$ million.

## Visitors Arrivals and Expenditure:

## Air Arrivals

Air arrivals during the third quarter of 2012 increased by 1.2 per cent compared to the same quarter of 2011. Despite the negative impact on arrivals by Hurricane Leslie in September 2012, a total of 80,852 visitors arrived on the Island, up from 79,917 a year ago.

Visitors from the United States, Bermuda's largest tourist market, edged up 0.3 per cent compared to the third quarter of 2011. Arrivals from Canada grew by 13.6 per cent to 7,636 visitors on account of a spike in visitors from the province of Ontario. In contrast, visitors from the United Kingdom and all other countries fell by 2.4 per cent and 0.2 per cent, respectively.

A breakdown of visitors by intended type of accommodation revealed that resort hotels benefitted directly from the increased arrivals, registering a 6.7 per cent rise in occupancy. In contrast, guest houses and housekeeping accommodations saw the largest reductions in bookings of 20.4 per cent and 13.8 per cent, respectively. Visitors staying at small hotels \& cottage colonies also declined by 3.5 per cent. The number of guests staying at private homes fell by 1.4 per cent.

3rd Quarter Air Arrivals

## Expenditure by Air Arrivals

Passengers arriving to the Island by air spent an estimated $\$ 119.2$ million during the third quarter of 2012. This represented a decrease of $\$ 1.8$ million year-over-year and a 2.6 per cent decline in average spending per visitor. Visitors spent 3.1 per cent less on accommodations and food. However, there was a rise of 5.1 per cent in spending on shopping, entertainment, transport and other services due primarily to a 9 per cent increase in outlays for transportation services.

## Cruise Arrivals \& Expenditure

During the third quarter of 2012, the number of cruise ship passengers to Bermuda fell 4.3 per cent. There were

69 cruise ship visits carrying 179,124 passengers compared to 187,240 who visited in 2011. The dip in cruise arrivals was attributed to six less cruise ship calls to the Island during the quarter.

Expenditure by cruise visitors on local goods and services, including entertainment, souvenirs, sightseeing, sports activities and transportation stood at $\$ 37.9$ million. This level of spending was 2.6 per cent or $\$ 1$ million less than the spending level reached during the same quarter in 2011.

## Hotel Gross Receipts

Total sales revenue for the hotel industry fell 5.5 per cent to $\$ 78.4$ million in the third quarter of 2012. Resort hotels
earned $\$ 3.9$ million less in sales this quarter, due primarily to fewer business and convention visitors during the period. Cottage colonies and small hotels experienced declines of 25.5 per cent and 1.7 per cent in sales, respectively. All other tourist accommodations collected 17 per cent less in sales receipts.

Receipts from room sales accounted for 60 per cent of all gross receipts. However, revenue from this source abated by roughly 7 per cent. Food sales and alcohol sales garnered less revenue as well, falling 11.6 per cent and 6.6 per cent, respectively.

## Hotel Employment

There were 2,579 workers employed in the hotel industry at the end of July

2012. This represented 70 fewer workers compared to last year. Hotels employed 2,123 workers which was 69 less than the same period in 2011. Employment at cottage colonies and housekeeping units decreased by 3 workers. In contrast, the number of workers at guest houses and smaller tourist properties increased by 2 to 19 workers.

## Overseas Spending by Residents

Residents declared $\$ 17.7$ million on overseas purchases of goods during the third quarter of 2012. The total value of goods declared was $\$ 870,000$ less than a
year ago. This represented a 4.7 per cent decline in overseas expenditure. Outlays on computer hardware \& software fell 33.4 per cent. Expenditure on household items, furniture and appliances, and tapes \& compact discs decreased roughly 29 per cent. Among the other commodity groupings, the value of resident declarations also contracted for tools, machinery and parts (-13.1 per cent), jewellery and watches ( -12.8 per cent), and electronic \& photographic equipment (-11.1 per cent). In contrast, spending on clothing and footwear edged up 0.5 per cent to $\$ 8.8$ million and accounted for half of total overseas purchases by residents.

## Retail Sales

Retail sales for the third quarter of 2012 totaled $\$ 262.2$ million. This represented a $\$ 6.6$ million decrease when compared to the third quarter of 2011. Amongst the seven retail sectors, building material stores experienced the largest decrease of 13.7 percent due to fewer contract projects. Consumer demand for apparel dipped 3.4 per cent as consumers faced fewer weekend shopping days.

Despite longer opening hours, service stations reported lower fuel sales per liter during the period resulting in a 2.1 per cent fall in revenue. All other store types,
including pharmacies, tourist related stores and furniture stores experienced a decrease of 1.6 per cent in combined sales.

Motor vehicle dealers, food stores and liquor stores all registered higher sales
during the quarter. A 1.7 per cent increase in motor vehicle sales marked the first quarterly increase for auto dealers since the first quarter of 2007. The rise in sales was primarily due to a temporary spike in inventory coupled with a weak sales
performance in the corresponding quarter of the previous year. Food sales were up 8.3 per cent partly due to purchases in preparation for the passage of Hurricane Leslie. Liquor sales increased 14.1 per cent.
